ONE SIMPLE SUBSCRIPTION FOR ALL YOUR CLASSROOM TECHNOLOGY
SMART Classroom as a Service (ClaaS™) provides your school with all of the technology you need to create an integrated learning environment through one simple subscription.

Inspiring Greatness

Greatness exists in every student. It’s up to all of us to help them discover and develop their unique talents. Because when students realize what they’re good at and what they love to do, they find their path for happiness and success in life. Teaching with the right technology inspires students to find greatness.
All of the learning technology. None of the ownership hassles.

You’re busy with your classes. Leave selecting your classroom technology to the experts. Your SMART Claas subscription allows you to obtain the latest SMART interactive displays, learning software, training days and IT infrastructure for your integrated classroom – without the costs associated with ownership.

It’s a revolutionary way to equip your classroom for the future of learning.
Encourage collaboration and engagement from anywhere — within the classroom or across the globe

Outside of the classroom students learn from each other by sharing experiences. SMART technology works with all sorts of student devices to bring that same back-and-forth interaction into the learning environment and beyond. Increased student collaboration paves the way for peer learning, better outcomes and school ratings.
SMART designs technology and software specifically for the classroom. We work with educators to stay on top of emerging teaching methodologies to ensure we address students’ needs. As a result, SMART creates the most advanced interactive displays and software that makes learning fun.

**SMART Board 7000 series with iQ**
This all-in-one SMART Board connects devices, lesson content and software wirelessly.
smarttech.com/panels

**SMART Board 6000 series with iQ**
Expanding its position as SMART’s most popular interactive display for education.
smarttech.com/panels

**SMART Board 2000 series**

Fixed costs
All SMART technology, software and technical support, with the option of computers, Wi-Fi technology, servers and everything you need for a digital classroom.

Fewer pounds. Zero capital costs.

Every school has budget constraints and competing priorities. SMART will work with the budget and IT infrastructure you have to recommend technology investment priorities. We will work with you to figure out the best way to break your SMART ClaaS into affordable quarterly, annually or school-term subscriptions. SMART ClaaS aligns with current UK legislation for the ethical procurement of technology in the education sector.
